* UKVI IELTS alternatives: we can accept other tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/glasgow/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Foundation Certificate

for Arts and Humanities

Common modules taken by all students:

- › English for Academic Purposes
- › English Language and Linguistics
- › English Literature
- › Extended Project
- › Introduction to the History of Art

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

Do you want to add an internship to your course?

You can take an integrated online internship as your final term, and gain additional career skills and experience before you start your degree.

Learn more: see the next page for more details.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:

- › Critical Reading, Writing and Reasoning for Higher Education
- › Independent and Collaborative Study

Plus up to 2 of these 3 modules:

- › Digital Applications
- › Preparatory Mathematics
- › Preparatory Science

Students with less than UKVI IELTS 5.5: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- › English for Academic Study 3
- › Independent and Collaborative Study
- › Reading and Writing 3
- › Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- › English for Academic Study 2 + English for Academic Study 3
- › Independent and Collaborative Study
- › Reading and Writing 2 + Reading and Writing 3
- › Speaking and Listening 2 + Speaking and Listening 3
- › Study Skills Preparation

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/glasgow/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals.

Foundation Certificate

for Science and Engineering with Internship

2/2

Common modules taken by all students:

- > English for Academic Purposes
- > Extended Project

You will also take 3 to 6 of the following modules that fit your degree and career goals[†]:

- > Biochemistry
- > Biology
- > Chemistry
- > Engineering
- > Geography and Earth Science
- > Intermediate Mathematics
- > Introduction to Sociology
- > Laboratory Skills and Scientific Writing
- > Mathematics
- > Physics
- > Programming
- > Science and Society

Integrated online internship: after the modules above, you'll take this internship as the final term of your course. It's a great way to apply and further develop your English in a professional setting, and build real-world experience related to your degree subject.

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find summaries of course modules, personal development activities and the internship later in this booklet.

Extra support: for courses of over 3 terms, you will also take Extended English and Skills modules before the modules to the left.

Students with UKVI IELTS 4.5 or 5.0 will typically take:

- > English for Academic Study 3
- > Independent and Collaborative Study
- > Reading and Writing 3
- > Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:

- > English for Academic Study 2 + English for Academic Study 3
- > Independent and Collaborative Study
- > Reading and Writing 2 + Reading and Writing 3
- > Speaking and Listening 2 + Speaking and Listening 3
- > Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biochemistry

Study organic chemistry and biological science, and develop the laboratory skills you'll need on a degree.

Business Communication

Develop your knowledge of and skills in written and spoken genres in the field of business studies.

Biology

Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business and Management

Analyse and connect theory and practice, using contemporary examples and applications in organisational behaviour, management, marketing and finance.

Chemistry

Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Critical Reading, Writing and Reasoning for Higher Education

Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications

Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

Economics

Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

Engineering

Study the key principles of engineering, including statics, dynamics, thermofluids and electronics.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

English Language and Linguistics

Learn about the structure and historical development of English sounds, words and grammar and how to discuss, describe and analyse language.

English Literature

Learn about a range of writers and texts, both novels and poetry, and how to reflect critically and theoretically on them.

Extended Project

Learn how to plan, carry out and report an extended project. You can choose a topic that matches your degree and career goals, and personal interests.

Geography and Earth Science

Discover the history of the Earth, its system development and processes, and the evolution of life and natural environments.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Intermediate Mathematics

Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to the History of Art

Learn about the key periods and themes in History of Art and World Cultures, and develop an appreciation and understanding of major aspects of a culture's material heritage.

Introduction to Sociology

Explore the classic and contemporary social theories, and the effects of globalisation and global economics.

Laboratory Skills and Scientific Writing

Develop practical laboratory skills and lab report writing, plus an awareness of laboratory safety procedures.

Mathematics

Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Physics

Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Politics

Learn about democratic, authoritarian and hybrid political systems, and about political institutions and cultures.

Preparatory Mathematics

Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Programming

Learn basic programming concepts, common programming problems and problem-solving methodologies.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Science and Society

Investigate and critique contemporary scientific issues and debates verbally and in writing.

Sociology

Evaluate the aims, methods and applications of social scientific research across the social sciences, with a particular emphasis on sociology.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Online internships

Following academic study, you'll take a one-term online work placement if you study a pathway course with internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will be assigned one of 18 career fields on your internship, based on your chosen progression degree. This will help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more on our website:

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.
